Matthew Kowal, B.A.Sc, M.Sc, Ph.D Candidate

Building Interpretable and Safe AI Systems

matt2kowal@gmail.com @MatthewKowal9
mkowal2.github.io linkedin.com/in/mkowal2

Education

2020 – Present **Ph.D. Computer Science, York University** Multi-layer and Temporal Post-Hoc Interpretability for Deep Vision Models.
Supervisor: Dr. Kosta G. Derpanis

2018 – 2020 **M.Sc. Computer Science, Ryerson University** Deep Learning, Computer Vision.
Thesis title: *An Evaluation of Modalities for Action Recognition*.
Supervisors: Dr. Kosta G. Derpanis and Dr. Neil Bruce

2013 – 2017 **B.A.Sc. Applied Mathematics and Engineering, Queens University**
Capstone title: *Region Tracking in an Image Sequence: Preventing Driver Inattention*.
Awarded Keyser Award for best capstone project in discipline.

Selected Experience

2025 – Present **Research Resident @ FAR AI** - AI Safety and mechanistic interpretability research with a focus on LLM persuasion capabilities.

2024 – 2025 **Research Intern @ Ubisoft La Forge** - Conducting research on concept-controllable diffusion models for text-to-human motion generation.

2023 – 2024 **Research Intern @ Toyota Research Institute - Machine Learning Team (Los Altos)** - Conducted research with a focus on video concept-based interpretability for robotic perception (published at CVPR 2024).

2021 – 2024 **Technical Project Lead @ Vector Institute** - Lead team of industry data-scientists in a computer vision project for multi-modal video understanding in collaboration with Intact Insurance, RBC, and Thomson Reuters.

2020 – 2022 **Lead Scientist in Residence @ NextAI** - Lead technical consultant for AI-focused startups. Provided support on the implementation of state-of-the-art deep learning algorithms for various industry applications.

2020 – 2021 **Organizing Chair @ OWCV** - Co-founder and organizing chair of the Ontario Workshop on Computer Vision, a student-focused workshop for computer vision researchers in Ontario. OWCV Website.

2018 – 2024 **Teaching Assistant** - Marking, supervised course projects, lecture design for the following classes: Machine Learning, Reinforcement Learning, Computer Vision, Advanced Algorithms, Big Data.

2017 – 2018 **Mechanical Engineer @ Morrison Hershfield** - Analysis and design of mechanical systems: controls, electrical, HVAC, hydro, fire protection.

Awards and Achievements

2024 **MITACs Accelerate** York University x Ubisoft La Forge ($45,000 over one year). Accepted.

2023 **NSERC CGS-D Scholarship** York University, Toronto ($105,000 over three years). Accepted.

2021 **Vector Post-Graduate Affiliate (PGA)**, Vector Institute, Toronto ($12,000). Affiliate status for two year term. Accepted.

York Graduate Scholarship (YGS), York University, Toronto ($3,000). Entrance scholarship. Accepted.

2020 **Ontario Graduate Scholarship (OGS)**, Ryerson University ($15,000). Accepted.

2017 **Keyser Award**, Queen's University ($1,000) - Best capstone project in Applied Mathematics and Engineering discipline. Accepted.

2013 **Queen's Excellence Scholarship**, Queen's University ($8,000). Accepted.

Skills

Coding Python, Bash, MATLAB, LaTeX.

Frameworks PyTorch, NumPy, AWS, TensorFlow.

Skills (continued)

Communication	Skilled at conveying technical concepts in a clear and engaging way.
